Bek Slambek

Frontend Developer & Designer

👤 Profile

A frontend developer and designer from Almaty, Kazakhstan. I blend a strong foundation in web development and design with a passion for creating clean, responsive, and thoughtful digital experiences.

I enjoy solving problems through both critical thinking and creative exploration. I am constantly learning --- whether from experience or partners. To me, every project is an opportunity to grow and improve.

💼 Employment History

Frontend Developer at Holodomats, Almaty

August 2024 — November 2024

Developed the client side of the admin page. Worked on creating tables and implementing sorting, filtering and pagination algorithms with Ant Design.
